

## Uploading zipped files into Blackboard.

Blackboard will unzip a zipped resource and display it inside Blackboard.

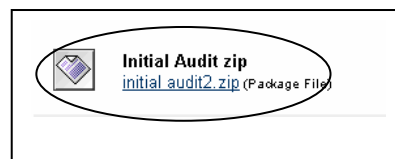

- Go to the control panel and select the area into which you want to upload the zipped file.
- Select "Add Item"
- Give the object a name and description

- Browse for the zipped file in the normal way.

- Select "Unpackage this file"
- Set the availability, date etc. in the normal way.
- Click Submit

You will be taken to a window which asks you to select the entry point for your package, i.e. the starting page of the zipped resource.

- This page will be named ...../index.html
- Select the page.
- Click Submit.

Your zipped files will then display in the right order when the link is clicked.
