

Changes to previous information

During the global COVID-19 pandemic, we prioritised the health, wellbeing and safety of our students and staff.

As we start the new academic year, your health, wellbeing and safety remains our top priority. This means when we return to our campuses and buildings in September 2020 social distancing and other health and safety measures will be in place. This is to help keep you, and others around you, safe. We will respond to the requirements of vulnerable students regarding their personal safety on an individual basis.

We remain committed to delivering an outstanding education and student experience both on campus and online. Like most universities, we'll be providing a mix of on-site face-to-face and digital learning and teaching. The exact mix will vary between courses and course modules taking into account teaching requirements and other considerations such as meeting the safety of vulnerable staff.

It is important to emphasise that a face-to-face, on-site experience will be delivered within the Government and Public Health England guidance and providing there are no serious unforeseeable public health issues that result in the Government introducing further lockdown measures.

Our response to the pandemic means we may have made changes to your course. This is to take account of these important health and safety measures.

We ask you to read the information provided about course changes carefully. We detail what we include in our online prospectus and explain what has changed.

You should read our statement of changes alongside any information provided in videos, at open days or in other promotional materials. This is because the information may also have been affected by the changes we had to make. We are providing this information so you can make an informed choice about whether the course remains suitable for you.

When you register for your course, you will be asked to confirm you have read about our changes and you agree to them. It means that by choosing to continue with your application, and register with us, you accept these changes and are happy to study your course with us.

We really look forward to seeing you in the next academic year. In the meantime, if you want to find out more about University life from this September, and being part of our supportive and welcoming community, please visit our [September 2020 web pages](#).

Overview		
	<p>Gain a thorough understanding of accounting and take the first step into higher education with our Accounting with Foundation Year course.</p> <p>Accounting is at the heart of all business decisions and encompasses a vast range of careers, from traditional auditing to global management consulting.</p> <p>Our Business foundation year will help you take your first step into higher education, broadening your industry knowledge and enabling you to progress to a related undergraduate degree. It aims to help you develop a strong foundation of business knowledge, alongside academic and transferable skills, to ensure you get the most out of your degree-level studies.</p> <p>Christ Church Business School has strong professional links and offers great work experience opportunities to help prepare you for the future. Guest speakers are regularly invited to share their knowledge with our students, and our 'Business Futures' weeks offer you the chance to connect with businesses.</p>	No change
Why study Accounting with Foundation Year?		
	Our experienced team has created an engaging course that captures the diversity of accounting. You'll have the opportunity	No change

	<p>to learn the language of finance, discover the inner workings of the markets, and stand out to recruiters with "Bloomberg Certification" Bloomberg Market Concepts (BMC) on your CV. This is free for our students and you can take this during your studies.</p> <p>The course is designed to give you the flexibility to pursue roles requiring an understanding of accounting, without committing to a career as an accountant. After graduation you'll be able to pursue many different roles in industry, practice, the service sector or self-employment. We promote student interaction with businesses and accounting firms through employability events and talks from guest speakers. Our links with a variety of professional bodies mean you'll have opportunities for work experience to prepare you for future employment.</p>	
--	---	--

Entry requirements	Applicants should normally have 32 UCAS Tariff points, although those without formal qualifications may be considered on an individual basis, however these students should still apply through UCAS. Business School students are also required to have GCSE mathematics at Grade C or equivalent.	No change

Module information

Please note that the list of optional modules and their availability may be subject to change. We continually review and where appropriate, revise the range of modules on offer to reflect changes in the subject and ensure the best student experience. Modules will vary when studied in combination with another subject.

Foundation year

	<p>Communication and Academic Skills for HE (Semester One) Core module The aim of the module is to provide and support you with developing the necessary skills base needed to study foundation year modules, and to help you identify and develop a range of transferable skills in preparation for studying at degree level. The module aims to develop a reflective approach by helping you identify your own strengths and weaknesses, and plan for your personal, educational and career development.</p>	No change
	<p>Personal and Career Development (Semester Two) Core module The aim of the module is to provide and support you with developing the necessary skills base needed to study foundation year modules, and to help you identify and develop a range of transferable skills in preparation for studying at degree level. The module aims to develop a reflective approach by helping you identify your own strengths and weaknesses, and plan for your personal, educational and career development.</p>	No change
	<p>Contemporary Issues in Business, Management and Marketing Core module This module prepares you for the academic study of business, management and marketing. You'll study contemporary and emerging business issues and you'll develop personal, academic and professional skills to prepare you for work in the modern business environment. You will start to put into practice the study skills that are required at university level and will begin to use tools of analysis to discuss important contemporary issues. You'll also explore the</p>	No change

	importance of issues around work and people in organisations by looking at basic human resource management functions, activities and issues.	
	<p>Contemporary Issues in Law Core module</p> <p>The module aims to provide you with a basic understanding of contemporary issues in law. You'll be introduced to several contemporary issues through the perspective of different areas of legal study. You'll be able to investigate a range of contemporary issues that require the application of legal rules and structures to develop their awareness of the implications and limitations of different areas of law in regards to specific issues.</p>	No change
	<p>Individual Project Core module - (0 Credits)</p> <p>This module gives you the opportunity to investigate, under supervisory guidance, a particular topic or issue related to material covered in the subject-specific modules. A major aim of the project is to help you prepare for your chosen degree.</p>	No change
	<p>Contemporary Issues in Accounting – Business Foundation Year Students Core module</p> <p>The aims of the module are to introduce you to the basic mechanics and processes of financial accounting in both theory and practice. You'll learn about the importance of financial and management accounting procedures in running a business effectively and the contemporary issues that are currently affecting these disciplines.</p>	No change
Core year 1		
	<p>Introduction to Financial Accounting Core module - (20 Credits)</p> <p>This module provides you with an understanding of accounting with a focus on limited liability companies. You'll be introduced to key accounting topics including double entry and you'll learn how to prepare financial statements for private limited companies.</p>	No change

	<p>Introduction to Management Accounting Core module - (20 Credits)</p> <p>The aim of the module is to develop an understanding of the sources and uses of accounting information within organisations. You'll develop a sound understanding of the cost accounting and decision-making techniques of management accounting and the role of accounting control systems in organisations.</p>	No change
	<p>Business and Information Analysis Core module - (20 Credits)</p> <p>This module is designed to help you develop a range of statistical and computing skills.</p>	No change
	<p>Economics Core module - (20 Credits)</p> <p>You'll explore the fundamental economic issues stemming from the scarcity of resources. The relationship between business and the economic problem is analysed by means of micro and macroeconomic models to equip you with an understanding of decision-making at the levels of the market, the firm and the nation.</p>	No change
	<p>Academic and Professional Skills for the Business Context Core module - (20 Credits)</p> <p>This module provides you with an introduction to business concepts and models, and the information sources needed to research, analyse and apply these concepts to the practice of business. It includes an overview of contemporary and emerging business themes including the changing macro-environment, emergence of new economies and inter-relatedness of the global trade, the structure and organisation of different industry sectors e.g. services, SMEs. You'll learn about sustainability, enterprise, innovation, corporate social responsibility and the impacts of globalisation on different business sectors.</p>	No change
	<p>Managing People in Organisations Core module - (20 Credits)</p> <p>This module focuses on the behavioural</p>	No change

	aspects of people management in organisations. By the end of the module, you'll be able to evaluate objectively and understand organisational behavioural situations and determine the best course of action from a range of perspectives.	
Optional year 1		
	N/A	No change
Core year 2		
	<p>Management Accounting Core module - (20 Credits)</p> <p>You'll study the fundamental concepts and techniques of management accounting and how to apply these techniques in an appropriate way. You'll also learn how to critically evaluate the strengths and limitations of these techniques. You'll explore how management accounting information may be used for the purposes of planning, decision making, performance measurement and control within organisations, to further the organisation's strategic objectives.</p>	No change
	<p>International Financial Reporting Core module - (20 Credits)</p> <p>You'll study advanced topics in financial accounting and will develop knowledge and skills in understanding and applying accounting standards, particularly in the preparation of financial statements of entities, including groups.</p>	No change

	duration. The overall aim is for you to develop skills to help you succeed in a graduate role.	and sectors. It looks at what employers are expecting and requiring for different job roles and how you can demonstrate this across a range of media platforms.
Optional year 2		
	Human Resources Management Optional module - (20 Credits) You'll analyse human resource management concepts, operational human resource activities and responsibilities, and will relate these to a range of organisational contexts.	No change
	Digital Business Optional module - (20 Credits) In this module, you'll explore the impact of emerging information and communication technologies on business activities. You'll study how technologies, and in particular data, can be deployed to enhance business activities.	No change
	Foundations of Finance Optional module - (20 Credits) You'll examine how practical techniques and tools are used within a corporate setting. This will involve exploring the principles of financial management in maximising shareholder wealth. You'll focus on the sources of finance and appraisal techniques of investment projects. You'll also learn how decisions on capital structure and management, along with dividend policy, impact on company valuation.	No change
	Project Management Optional module - (20 Credits) You'll critically examine the role of project management within a contemporary business context. You'll learn how specific project management applications play an important role in producing successful business outcomes and you'll study the philosophies, principles, structures and methodologies of project management.	No change
	Operations Management Optional module - (20 Credits)	No change

	<p>You'll critically evaluate the role of operations management within business and other organisations such as not-for-profit and public bodies. You'll learn about the role and function of operations management in contributing to an organisation's competitiveness. This will include analysing the design and delivery of products and services, the management of quality and the management, control and improvement of the operation.</p>	
	<p>Business and Sustainability Optional module - (20 Credits) You'll explore the relationship between business and global sustainability challenges.</p>	No change
	<p>Research Methods Optional module - (20 Credits) This module is designed to enable you to develop your skills and expertise in quantitative and qualitative data analysis, and to independently design and conduct an effective piece of research.</p>	No change
	<p>Managing not for Profit Organisations and Social Enterprises Optional module - (20 Credits) You'll explore the diverse organisational forms not-for-profit and social enterprises have taken. The focus will be on understanding not-for-profit and social enterprises as standalone organisational and business models. You'll also undertake an experiential learning activity on how to start up a social enterprise, exploring relevant internal organisational processes (e.g. teamwork, organisational culture, decision making processes, information system and management) and their various dimensions.</p>	No change
	<p>Innovation and Enterprise Management Optional module - (20 Credits) Combined honours only. The aim of the module is to provide you with an understanding of creativity, innovation and problem-solving processes in organisations, and how these contribute to business sustainability and competitiveness. You'll</p>	No change

	develop an awareness of how entrepreneurial skills and capabilities impact on and relate to business start-up, development and management.	
	<p>Management and Leadership Optional module - (20 Credits)</p> <p>You'll explore: the context within which management and leadership takes place; the historical context within which the fundamental principles of management arise; the context of the external environment which impacts on organisational strategy and may cause ambiguity in relation to organisational objectives, policies, working practices, ethical considerations and management approaches. You'll also explore a range of different perspectives on management and leadership with focus on particular managerial/leadership issues that lead to ambiguities and problems.</p>	No change
Core year 3		
	<p>Contemporary Accounting Issues Core module/single honours only - (20 Credits)</p> <p>You'll study developments in company accounting and disclosure from a critical perspective, and will explore the evolution of international accounting standards and their implications for users. You'll review controversial issues in the treatment of accounting transactions and will develop the skills required for the interpretation of accounting and other relevant information.</p>	No change
	<p>Financial Management for Accountants Core module - (20 Credits)</p> <p>The aim of this module is to build up an understanding of the treasury function and corporate financial strategy, and to develop the practical skills for dealing with the corporate financial issues. The module covers corporate financial issues related to: financial management function; financial management environment; investment appraisal; business finance; business valuation; working capital management and risk management.</p>	No change

	<p>Audit and Assurance Core module - (20 Credits)</p> <p>This module introduces you to key auditing techniques. You'll explore the importance of the audit function and the independent examination of financial information of any entity, whether profit oriented or not, and irrespective of its size or legal form.</p>	No change
	<p>Taxation Core module/single honours only - (20 Credits)</p> <p>Taxation plays an important role in society. This module provides an introduction to the most common taxes in the UK: income tax, corporation tax, VAT and capital gains tax. You'll study the basic rules of taxation and you'll explore taxation in government policy.</p>	No change
Optional year 3		
	<p>Strategic Management Optional module - (20 Credits)</p> <p>The aim of the module is to provide you with an understanding of the impact of the business environment and the resources of the organisation, both human and material, on strategic planning and choice. This will enable you to consider strategic alternatives, evaluate their suitability and become aware of the complex issues involved in implementing strategy and managing strategic change.</p>	No change
	<p>Business Ethics Optional module - (20 Credits)</p> <p>You'll study the nature of ethics, exploring traditional and postmodern ethical theories, and how they are applied in modern business processes. You'll study topics such as corporate social responsibility, sustainability and the environment, professionalism and integrity, ethics and technology, financial scandals, whistle blowing and other emerging issues, by reference to case studies.</p>	No change
	<p>Financial Markets and Risk Management Optional module - (20 Credits)</p> <p>This module aims to develop your understanding of the role of securities in</p>	No change

	<p>the financial markets and how the economic environment impacts the value of financial securities. It introduces you to the special regulatory requirements and the accounting implications into being an investor in those securities. You'll be exposed to the importance of identifying the greatest source of risk and how this risk can be managed using derivative instruments and how different investment products are tailored to the needs of different clients.</p>	
	<p>Individual Study Optional module - (20 Credits) The aim of the module is to provide you with the opportunity to undertake an in-depth study in an area of your choice related to a business.</p>	No change
	<p>Service Management Optional module - (20 Credits) In this module, you'll learn about the complex demands made on service management organisations and the challenges that staff within them face. You'll develop an understanding of the environments in which they operate and the different constraints placed on them. You'll also study the process of servitisation, managing the service encounter, service quality, service level, customer management and capacity management.</p>	No change
	<p>New Venture Creation Optional module - (20 Credits) You'll gain a practical perspective on the development and planning processes involved in the creation of a new venture, either as a new business start-up or as a new product or service development within a public or private organisation setting. You'll develop an understanding and awareness of business models underlying successful new business ventures, and the potential of business model innovation.</p>	No change
	<p>Organisational Change Optional module - (20 Credits) The aims of this module are to help you understand the context for</p>	No change

	<p>change and develop a critical understanding of theories and practice related to change. You'll develop an in depth understanding of the paradigm of complexity and how this can be applied in order to understand organisations and organisational change.</p>	
	<p>International Business Optional module - (20 Credits) The fast-changing domestic and global environments put constant pressure on organisations and their managers to find new and improved ways to maintain and increase performance. This module is designed to provide you with a critical understanding of the strategic issues in a global business environment. It offers a global perspective with a focus on understanding the global economy, the globalisation process, and its impact on international organisations. It will enable you to evaluate and contrast the opportunities and constraints facing businesses in different areas of the world. The module also aims to help you develop a deeper understanding of the issues faced by businesses in emerging and developing markets.</p>	<p>No change</p>
	<p>Dissertation Optional module - (40 Credits) The aim of the module is to provide you with the opportunity for the practical application of theory to a business-oriented problem and to develop your research skills.</p>	<p>No change</p>

How you'll learn

Teaching

Our teaching team will share with you their expert knowledge, experience and research insights during stimulating lectures, seminars and practical workshops. You will typically have around 12 contact hours per week, depending on your module choices, in addition to independent learning. Seminars in smaller groups will enable you to discuss and develop your understanding of topics covered in lectures and you'll also be supported by your academic personal tutor. In Year 2, you will undertake a minimum of 4 weeks or 120 hours placement with an external organisation as part of the compulsory Work-based Learning module. Your final year project will be based on a live brief from a relevant industry. All courses are informed by the University's [Learning and Teaching Strategy 2015-2022](#).

Our teaching team will share with you their expert knowledge, experience and research insights during stimulating lectures, seminars and practical workshops. You'll be taught over two semesters each year, taking three modules per semester. Typically, you'll have around 12 contact hours per week, depending on your module choices, in addition to independent learning. The Business School will be delivering your course using a 'blended' approach using range of teaching methods. This potentially offers the best of both worlds: great face-to-face teaching in small groups, including seminars, workshops and tutorials, support by a mix of online interactions to help you understand and explore your subjects. We will be using Collaborate (accessed through our virtual learning environment - Blackboard) and exploring the use of Microsoft teams as well. This blended approach will be flexible so we can meet your individual needs and adapt as the world around us changes. We will still be covering the same content as we would have done under normal circumstances and will be assessing you against the same learning outcomes. Seminars in smaller groups will enable you to discuss and develop your understanding of topics covered in lectures and you'll also be supported by your academic personal tutor.

Contact hours are defined as hours in which a student interacts through thoughtfully structured activity to include:

- On-site face-to-face teaching
- Synchronous live digital teaching
- Asynchronous digital activities as part of structured learning (for example, running a discussion activity regarding an aspect of the current topic through

		<p>Blackboard Collaborate, Padlet or Blackboard Discussion Boards). A pre-recorded lecture presentation provided via ReCap can also be included in this definition provided it is part of a broader structured activity.</p> <p>Between Years 2 and 3 you'll have the opportunity to gain work experience on a year-long placement with an external organisation, although because of Covid-19 such experience may be restricted and entail working from home, depending upon the external organisation's policies at the time. All courses are informed by the University's Learning and Teaching Strategy 2015-2022.</p>
--	--	--

<p>Independent study</p>	<p>Each week, you'll need to undertake 15 hours of independent learning and assessment activity. Typically, this involves reading journal articles and books, undertaking research in the library, working on projects and preparing for coursework assignments/examinations, workshops and seminars.</p> <p>Your module tutor will direct you towards specific readings and/or activities to complete.</p> <p>You'll also undertake independent research during Year 2 for an Extended Essay and in Year 3 for your Dissertation. You'll work under the supervision of a member of the course team, who you'll meet with regularly.</p>	<p>No change</p>
<p>How you'll be assessed</p>		
	<p>The course provides you with opportunities to test your understanding of the subject informally before you complete the formal assessments that count towards your final mark. Each module normally contains at least one piece of practice or 'formative' assessment for which you receive feedback from your tutor. Practice assessments are developmental and any grades you receive for them do not count towards your module mark.</p> <p>There is a formal or 'summative' assessment at the end of each module. Assessment methods include written examinations and a range of coursework assessments such as essays, reports, portfolios, performance, presentations and your final year major project. The grades from formal assessments count towards your module mark.</p> <p>The balance of assessment by examination and assessment by coursework depends on the optional modules you choose. The approximate percentage of the course assessed by coursework is as follows:</p>	<p>The course provides you with opportunities to test your understanding of the subject informally before you complete the formal assessments that count towards your final mark. 	Your future career Many graduates go on to study accounting at professional level. However, this versatile degree can help open doors to a variety of roles in business. The mentoring offered by	No change

	our experienced team will guide and prepare you for your first business or professional accountancy role.	
	<p>Professional accreditation</p> <p>Our accounting course gives maximum exemptions through accredited modules. Accounting at Christ Church holds all available exemptions from Association of Chartered Certified Accountants (ACCA), CPA Australia, and the majority of exemptions from Chartered Institute of Management Accountants (CIMA), Institute of Chartered Accountants in England and Wales (ICAEW) and Chartered Institute of Public Finance and Accountancy (CIPFA). If you plan to pursue a professional accounting qualification post-graduation, the exemptions expedite your chosen professional qualification and appeal to prospective employers. We also offer modules accredited by the Association of Project Management (APM). Our Project Management module was the first from a university to gain accreditation and exemption for its teaching and assessment. The Business School has accreditation with the Chartered Management Institute (CMI). The year two modules of Management and Leadership, Project Management, Management Accounting and Human Resource Management are accredited by the CMI and on successful completion, you will be eligible for CMI Level 5 qualifications in Leadership and Management.</p>	<p>Professional accreditation</p> <p>Our accounting course gives maximum exemptions through accredited modules.
