

Changes to previous information

During the global COVID-19 pandemic, we prioritised the health, wellbeing and safety of our students and staff.

As we start the new academic year, your health, wellbeing and safety remains our top priority. This means when we return to our campuses and buildings in September 2020 social distancing and other health and safety measures will be in place. This is to help keep you, and others around you, safe. We will respond to the requirements of vulnerable students regarding their personal safety on an individual basis.

We remain committed to delivering an outstanding education and student experience both on campus and online. Like most universities, we'll be providing a mix of on-site face-to-face and digital learning and teaching. The exact mix will vary between courses and course modules taking into account teaching requirements and other considerations such as meeting the safety of vulnerable staff.

It is important to emphasise that a face-to-face, on-site experience will be delivered within the Government and Public Health England guidance and providing there are no serious unforeseeable public health issues that result in the Government introducing further lockdown measures.

Our response to the pandemic means we may have made changes to your course. This is to take account of these important health and safety measures.

We ask you to read the information provided about course changes carefully. We detail what we include in our online prospectus and explain what has changed.

You should read our statement of changes alongside any information provided in videos, at open days or in other promotional materials. This is because the information may also have been affected by the changes we had to make. We are providing this information so you can make an informed choice about whether the course remains suitable for you.

When you register for your course, you will be asked to confirm you have read about our changes and you agree to them. It means that by choosing to continue with your application, and register with us, you accept these changes and are happy to study your course with us.

We really look forward to seeing you in the next academic year. In the meantime, if you want to find out more about University life from this September, and being part of our supportive and welcoming community, please visit our [September 2020 web pages](#).

Overview		
	<p>We are living in a global economy, surrounded by products sourced from all over the world. Learn how to develop strategies to make businesses internationally successful.</p> <p>Increasingly many of the services you use, whether it is booking a flight or watching a film, are provided by businesses located in countries other than your own. Thanks to the digital revolution, businesses both large and small can trade across the world. However, differences between nations remain and understanding their similarities and differentiation are essential. As with all our business courses, employability and digital skills are embedded to give you hands-on practical experience. You'll also be able to learn a language as part of your studies.</p>	No change
Why study International Business Management?		
	You'll be able to immerse yourself in international business management through stimulating lectures and seminars, and will be exposed to the many aspects of business including supply chain	You'll be able to immerse yourself in international business management through stimulating lectures and seminars, and will be exposed to the many aspects of business including

	<p>management, business information and systems, people management, accounting, sustainability and more. As well as looking at different organisations, you'll explore the external environments in which they operate and are managed, and you'll be encouraged to apply critical thinking to help solve business challenges.</p> <p>The breadth of this degree and the opportunity to study abroad means you'll be well equipped to choose from a wide range of careers in business. We maintain close links with numerous European universities where our students can study for a semester or entire year within the framework of the Erasmus programme.</p>	<p>supply chain management, business information and systems, people management, accounting, sustainability and more. Entry requirements	A typical offer would be 88-112 UCAS Tariff points.	No change
About the course		
	<p>You'll study all the fundamental areas of business – finance, HR, marketing and operations - and you'll also learn about the macro and micro international environments in which they operate, as well as other areas such as cultural, social and ethical issues. As with all of our business courses, there is a strong practical element, and from the first day you'll be building your knowledge and understanding of organisations and how they are managed.</p> <p>You'll explore areas including:</p> <ul style="list-style-type: none"> • international business strategy • operational business analysis • cultural research and analysis. <p>You'll have the opportunity to undertake a year-long work placement, in addition to your three year academic studies. The Problem Oriented Project in Year 3 also provides you with an excellent opportunity to gain real life experience in the workplace.</p>	<p>You'll study all the fundamental areas of business – finance, HR, marketing and operations - and you'll also learn about the macro and micro international environments in which they operate, as well as other areas such as cultural, social and ethical issues. The Problem Oriented Project in Year 3 also provides you with an excellent opportunity to gain real life experience in the workplace.</p>
<p>Module information</p> <p>Please note that the list of optional modules and their availability may be subject to change. We continually review and where appropriate, revise the range of modules on offer to reflect changes in the subject and ensure the best student experience. Modules will vary when studied in combination with another subject.</p>		
Core year 1		
	<p>Contemporary Language Studies Core module - (20 Credits)</p> <p>This module gives you the chance to learn and improve your language skills in either a new language or one with which you are already familiar. This module is taught in the School of Language Studies and Applied Linguistics.</p>	No change

	<p>Introductory Accounting and Finance for Business Core module - (20 Credits)</p> <p>In this module, you'll study key accounting and finance topics. You'll be introduced to financial statements and will use several case studies to understand the role of finance in the business environment.</p>	No change
	<p>Business Information and Analysis Core module - (20 Credits)</p> <p>This module is designed to help you develop a range of statistical and computing skills.</p>	No change
	<p>Academic and Professional Skills for the Business Context Core module - (20 Credits)</p> <p>This module prepares you for the academic study of business and for employment in the modern business environment. You'll develop knowledge of contemporary and emerging business issues to support your personal, academic and professional development.</p>	No change
	<p>Economics Core module - (20 Credits)</p> <p>You'll explore the fundamental economic issues stemming from the scarcity of resources. The relationship between business and the economic problem is analysed by means of micro and macroeconomic models to equip you with an understanding of decision-making at the levels of the market, the firm and the nation.</p>	No change
	<p>Managing People in Organisations Core module - (20 Credits)</p> <p>This module focuses on the behavioural aspects of people management in organisations. By the end of the module, you'll be able to evaluate objectively and understand organisational behavioural situations and determine the best course of action from a range of perspectives.</p>	No change
Optional year 1		
	N/A	No change

Core year 2		
	<p>Contemporary Language Studies II Core module - (20 Credits)</p> <p>This module develops your language skills and in particular introduces business language into your studies. It will help develop your language skills especially your use of grammar and range of vocabulary. This module is taught in the School of Language Studies and Applied Linguistics.</p>	No change
	<p>Project Management (APM) Core module - (20 Credits)</p> <p>You'll critically examine the role of project management within a contemporary business context. You'll learn how specific project management applications play an important role in producing successful business outcomes, and you'll study the philosophies, principles, structures and methodologies of project management.</p>	<p>Project Management Core module - (20 Credits)</p> <p>You'll critically examine the role of project management within a contemporary business context. You'll learn how specific project management applications play an important role in producing successful business outcomes, and you'll study the philosophies, principles, structures and methodologies of project management.</p>
	<p>Management and Leadership (CMI) Core module - (20 Credits)</p> <p>You'll explore: the context within which management and leadership takes place; the historical context within which the fundamental principles of management arise; the context of the external environment which impacts on organisational strategy and may cause ambiguity in relation to organisational objectives, policies, working practices, ethical considerations and management approaches. You'll also explore a range of different perspectives on management and leadership with focus on particular managerial/leadership issues that lead to ambiguities and problems.</p>	<p>Management and Leadership Core module - (20 Credits)</p> <p>You'll explore: the context within which management and leadership takes place; the historical context within which the fundamental principles of management arise; the context of the external environment which impacts on organisational strategy and may cause ambiguity in relation to organisational objectives, policies, working practices, ethical considerations and management approaches. You'll also explore a range of different perspectives on management and leadership with focus on particular managerial/leadership issues that lead to ambiguities and problems.</p>
	<p>Employability Skills Core module - (20 Credits)</p> <p>This module develops your skills in seeking and obtaining a work placement or internship of a minimum of three weeks' duration. The overall aim is for you to develop skills to help you succeed in a</p>	<p>Employability Skills Core module - (20 Credits)</p> <p>The aim of the module is to develop your personal effectiveness and employment related skills to improve</p>

	graduate role.	your chances of achieving your desired career path. The module will help you gain the knowledge and interpersonal skills required to successfully gain employment in your career. It will help become critically self-aware of your own skills and personal strengths and be able communicate and promote yourself in a variety of formats to an employer or recruitment officer.
Optional year 2		
	<p>Accounting for Business Optional module - (20 Credits)</p> <p>The aim of the module is to provide you with an understanding and application of the financial accounting information for decision-making within organisations. The module extends the scope of Introductory Accounting and Finance for Business modules to more advanced topics in financial accounting. It provides you with a good grounding in, and an appreciation of, the financial accounting essentials that any analyst, manager or business owner should possess.</p>	No change
	<p>Business and Sustainability Optional module - (20 Credits)</p> <p>The aim of the module is to introduce you to the relationship between business and the challenges and opportunities of business sustainability. The module encourages you to develop enterprising skills to meet these challenges.</p>	No change
	<p>Digital Business Optional module - (20 Credits)</p> <p>In this module, you'll explore the impact of emerging information and communication technologies on business activities. You'll study how technologies, and in particular data, can be deployed to enhance business activities.</p>	No change
	<p>Retail Management Optional module - (20 Credits)</p> <p>This module will help you develop a critical awareness and understanding of concepts involved in the modern retail industry.</p>	No change

	You'll: analyse a range of retail business techniques; evaluate the alternatives in relation to retail management; and identify and understand developments in retail and how they impact on retail management.	
	<p>Managing not for Profit Organisations and Social Enterprises Optional module - (20 Credits)</p> <p>You'll explore the diverse organisational forms not-for-profit and social enterprises have taken. The focus will be on understanding not-for-profit and social enterprises as standalone organisational and business models. You'll also undertake an experiential learning activity on how to start up a social enterprise, exploring relevant internal organisational processes (e.g. teamwork, organisational culture, decision making processes, information system and management) and their various dimensions.</p>	No change
	<p>Operations Management Optional module - (20 Credits)</p> <p>You'll critically evaluate the role of operations management within business and other organisations such as not-for-profit and public bodies. You'll learn about the role and function of operations management in contributing to an organisation's competitiveness. This will include analysing the design and delivery of products and services, the management of quality and the management, control and improvement of the operation.</p>	No change
	<p>Supply Chain Management Optional module - (20 Credits)</p> <p>In this module, you'll examine the various aspects of supply chain management and consider how these can contribute to the way in which the needs and requirements of a customer can be fulfilled, particularly in the context of supplier/purchaser dependencies and the management of the associated relationships.</p>	No change
	<p>Principles of Logistics Optional module - (20 Credits)</p> <p>This is the fundamental module for logistics</p>	No change

	that covers the management science of operating a logistics business as well as many of the practicalities of logistics. It includes areas such strategic and operational management, outsourcing 3PL and 4PL as well as providing an insight into the various modes of transport.	
	Human Resources Management Optional module - (20 Credits) You'll analyse core human resource management (HRM) concepts, operational human resource activities and responsibilities and will relate these to a range of organisational contexts. You'll focus on: dynamics of workplace, the external environment, managing recruitment and selection, performance management, leading equality and diversity, talent management, reward, learning and development, health and safety, disciplinary and grievances at work, and globalisation and the internationalisation of HR.	No change
	Employment Law Optional module - (20 Credits) You'll learn about the legal frameworks that underpin people practices and policies in organisations, and you'll explore the contexts within which these frameworks operate.	No change
	Innovation and Enterprise Management Optional module - (20 Credits) The aim of the module is to provide you with an understanding of creativity, innovation and problem-solving processes in organisations and how these contribute to business sustainability and competitiveness. It aims to develop your awareness of how entrepreneurial skills and capabilities impact on and relate to business start-up, development and management.	No change
	Research Methods Optional module - (20 Credits) This module is designed to enable you to develop skills and expertise in quantitative and qualitative data analysis, and to	No change

	independently design and conduct an effective piece of research.	
	<p>Corporate and Business Law Optional module - (20 Credits)</p> <p>You'll develop an understanding of the general legal framework, and of specific legal areas relating to business, so that you're able to recognise when it's necessary to seek specialist legal advice. You'll also learn about compliance with the codes of ethics for professional accountants.</p>	No change
	<p>Intercultural Experience Optional module - (20 Credits)</p> <p>This module involves working with our overseas collaborative partners and so you must be willing and able to travel. You'll have the opportunity to reflect on your experiences both in the UK and abroad, and analyse and record the personal benefits you've gained from your experience.</p>	<p>Intercultural Experience Optional module - (20 Credits)</p> <p>This module involves working with our overseas collaborative partners and so you must be willing and able to travel – subject to any Covid 19 restrictions, which may mean you'll have to choose another optional module. You'll have the opportunity to reflect on your experiences both in the UK and abroad, and analyse and record the personal benefits you've gained from your experience.</p>
Core year 3		
	<p>International Business Management Individual Study Core module - (20 Credits)</p> <p>The aim of this module is to help you consolidate the knowledge gained over the two previous academic years into a single piece of work that relates to international business. It can be themed around business strategy, marketing or other relevant area of management, or around a sector of business that interests you.</p>	No change
	<p>Contemporary Language Studies III Core module - (20 Credits)</p> <p>The module allows you to refine your language skills and give you confidence in your language skills and abilities, particularly if you are intending to work in other parts of the world where English is not the principle language. This module is taught in the School of Language Studies and Applied Linguistics.</p>	No change

	<p>Strategic Management Core module - (20 Credits)</p> <p>The aim of the module is to provide you with an understanding of the impact of the business environment and the resources of the organisation, both human and material, on strategic planning and choice. This will enable you to consider strategic alternatives, evaluate their suitability and become aware of the complex issues involved in implementing strategy and managing strategic change.</p>	<p>No change</p>
	<p>Financial Management Core module - (20 Credits)</p> <p>The module will consist of a review of financial techniques that need to be employed in assessing corporate performance, and you'll start learning new methods of assessing corporate success. You'll consider financial risk management and the various instruments and techniques that are available to business executives in some depth. Another key area of study will be the workings and implications of the stock exchange, both in relation to the shareholders and to the business organisations and financial markets. You'll identify and evaluate sources of appropriate funds and you'll learn about calculating the cost of equity capital using the weighted average cost of capital (WACC) and the capital asset pricing model (CAPM).</p>	<p>No change</p>
<p>Optional year 3</p>		
	<p>New Venture Creation Optional module - (20 Credits)</p> <p>You'll gain a practical perspective on the development and planning processes involved in the creation of a new venture, either as a new business start-up or as a new product or service development within a public or private organisation setting. You'll develop an understanding and awareness of business models underlying successful new business ventures, and the potential of business model innovation.</p>	<p>No change</p>
	<p>Business Ethics Optional module - (20 Credits)</p> <p>This module will expose you to the</p>	<p>No change</p>

	<p>important moral issues that arise in various business contexts, and help you develop an understanding of the moral, social, environmental, and economic context in which these problems occur. It will also introduce you to the ethical theory and associated concepts that are relevant for analysing these problems, and to assist you in developing the necessary reasoning skill for doing so. You'll be encouraged to reflect on your own values and on your own responses to the hard moral choices that the world of business can pose.</p>	
	<p>Entrepreneurship in the Global Marketplace Optional module - (20 Credits) You'll explore the notion of international entrepreneurship as a contributory factor impacting on economic development and you'll evaluate the issues influencing entrepreneurs and business ventures in emerging, developing, established and declining global markets. You'll research the economic, political and social contexts for entrepreneurial ventures across the globe. You'll also reflect on differences in national culture and governance systems that influence the levels and nature of new venture creation in different geographic locations.</p>	<p>Delete this module This was replaced by NVC</p>
	<p>Strategic Digital and Social Media Marketing Optional module - (20 Credits) You'll develop a critical understanding of the main activities involved in designing and implementing marketing communications using social media and digital marketing. You'll consider the use of social media and other digital marketing channels and will explore the underlying psychologies at play that govern their use. You'll study aspects of consumer and business behaviour that underpin the use of social media.</p>	<p>Social Media Marketing Optional module - (20 Credits) You'll develop a critical understanding of the main activities involved in designing and implementing marketing communications using social media and digital marketing. You'll consider the use of social media and other digital marketing channels and will explore the underlying psychologies at play that govern their use. You'll study aspects of consumer and business behaviour that underpin the use of social media.</p>
	<p>Public Relations Planning and Strategy Optional module - (20 Credits) You'll be introduced to the strategic, creative and operational aspects of public relations within the wider role of</p>	<p>No change</p>

	<p>organisational strategy across a range of different business organisations, which operate on a local to global scale. You'll explore and evaluate core elements of communication and PR activities, including the creation of news and content to gain media coverage and customer sharing. You'll be able to build your professional PR skills including the writing of a press release, writing for social media, internal audiences and a wide range of stakeholders.</p>	
	<p>Organisational Change and Change Agents Optional module - (20 Credits) You'll gain an understanding of the context for change, and will develop a critical understanding of theories and practice related to change. This module aims to give you an in depth understanding of the paradigm of complexity and how this can be applied to understand organisations and organisational change. You'll explore the relevance of the local context and the main organisational process of a social enterprise. Through an online simulation, you'll set up a social enterprise.</p>	<p>No change</p>
	<p>International Business Optional module - (20 Credits) The fast-changing domestic and global environments put constant pressure on organisations and their managers to find new and improved ways to maintain and increase performance. This module is designed to provide you with a critical understanding of the strategic issues in a global business environment. It offers a global perspective with a focus on understanding the global economy, the globalisation process, and its impact on international organisations. It will enable you to evaluate and contrast the opportunities and constraints facing businesses in different areas of the world. The module also aims to develop a deeper understanding of the issues faced by businesses in emerging and developing markets.</p>	<p>No change</p>
	<p>Retail Strategy</p>	<p>No change</p>

	<p>Optional module - (20 Credits)</p> <p>This module builds on the Retail Management module which explores retail operations at a store level. It will give you an understanding of various retailers' activities and approaches from a strategic viewpoint, and accounting for head office perspectives, strategic decision-making processes and implementation. The module therefore focuses on large multiple retailers, where research, investment and expertise exist. You'll learn about key areas of retail strategy such as location (including planning issues and town centre and shopping mall development) supply chain management (including sourcing, buying and range planning and the impact of technology) and branding and communication, all applied to the strategic direction of the retailer.</p>	
	<p>Taxation</p> <p>Optional module - (20 Credits)</p> <p>Taxation plays an important role in society. This module provides an introduction to the most common taxes in the UK: income tax, corporation tax, VAT and capital gains tax. You'll study the basic rules of taxation and you'll explore taxation in government policy.</p>	<p>No change</p>
	<p>Service Management</p> <p>Optional module - (20 Credits)</p> <p>In this module, you'll learn about the complex demands made on service management organisations and the challenges that staff within them face. You'll develop an understanding of the environments in which they operate and the different constraints placed on them. You'll also study the process of servitisation, managing the service encounter, service quality, service level, customer management and capacity management.</p>	<p>No change</p>
	<p>Intercultural Marketing Communication</p> <p>Optional module - (20 Credits)</p> <p>In this module, you'll explore how cultural contexts can impact the effectiveness of marketing. You'll draw comparisons between your home country and various</p>	<p>No change</p>

	<p>other countries in different continents. You'll gain a critical understanding of the nature and elements of culture and the ways in which they influence consumers and businesses in international markets. You'll be able to evaluate the influence of cultural diversity on international marketing communications and also appreciate the impact of cultural diversity in wider business negotiations. Emphasis is given to language (verbal and non-verbal) and its role in effective communication across a range of marketing activities, but with particular emphasis on its value in relation to direct and indirect marketing communications activities, such as personal selling, advertising, public relations, sales promotion and packaging, with a stronger emphasis on mass communication.</p>	
	<p>Dissertation / Problem Oriented Project Optional module - (40 Credits) This module will give you the opportunity for the practical application of theory to a business oriented problem and to develop research skills. If you wish to undertake a Dissertation, you'll be required to study Research Methods in Year 2. You'll have introductory workshop sessions and tutorials in the first two weeks of the semester then a further week to submit a brief proposal. Individual and group tutorial support will be available during this time to give you the opportunity to discuss the nature, scope, suitability and sustainability of the proposed study. Once approved, you'll undertake your study with the support of a supervisor.</p>	<p>No change</p>

How you'll learn

Teaching

You'll be taught through lectures and seminars where, in smaller groups, you'll be able to discuss and develop your understanding of topics covered in lectures. In addition, you'll have meetings with your academic personal tutor.

Each 20 credit module will involve 200 hours of work with 50 of these being contact time (lectures and seminars) and the rest self-directed study which includes preparation for and the production of assessments.

You'll be expected to read up on the relevant topics and positively contribute to class discussions and debates.

All courses are informed by the University's [Learning and Teaching Strategy 2015-2022](#).

You'll be taught through lectures and seminars where, in smaller groups, you'll be able to discuss and develop your understanding of topics covered in lectures. In addition, you'll have meetings with your academic personal tutor.

Each 20 credit module will involve 200 hours of work with 50 of these being contact time (lectures and seminars) and the rest self-directed study which includes preparation for and the production of assessments.

You'll be expected to read up on the relevant topics and positively contribute to class discussions and debates

The Business School will be delivering your course using a 'blended' approach using range of teaching methods. This potentially offers the best of both worlds: great face-to-face teaching in small groups, including seminars, workshops and tutorials, support by a mix of online interactions to help you understand and explore your subjects. We will be using Collaborate (accessed through Blackboard) and exploring the use of Microsoft teams as well. This blended approach will be flexible so we can meet your individual needs and adapt as the world around us changes. We will still be covering the same content as we would have done under normal circumstances and will be assessing you against the same learning outcomes.

Contact hours are defined as hours in which a student interacts through thoughtfully structured activity to include:

- On-site face-to-face teaching
- Synchronous live digital teaching
- Asynchronous digital activities as part of structured learning (for example, running a discussion activity regarding an aspect of the current topic through

		<p>Blackboard Collaborate, Padlet or Blackboard Discussion Boards). A pre-recorded lecture presentation provided via ReCap can also be included in this definition provided it is part of a broader structured activity.</p> <p>All courses are informed by the University's Learning and Teaching Strategy 2015-2022.</p>
--	--	--

Independent study	When not attending lectures, seminars, workshops or other timetabled sessions, you'll be expected to continue learning through self-study. Typically, this will involve reading journal articles and books, undertaking research in the library, working on projects, preparing coursework assignments/examination, and preparing for workshops and seminars. Your module tutor will direct you towards specific readings and/or activities that you will be expected to complete before class, On average, you should expect to carry out approximately 35 hours of self-study per week during semester time.	No change
Academic input	The majority of staff have worked as practitioners. As well as teaching, the team is also actively involved in research, knowledge exchange and cross-cultural teaching at institutions in other parts of Europe.	No change
How you'll be assessed		
	The goals of our assessment strategies are to promote learning, to demonstrate knowledge and understanding, and to ascertain the high standards of the programme. Our assessments consist of case studies, essays, individual and group projects, presentations, exams, and in class assignments.	No change
Fees		
UK/EU	Full-time – Foundation Year 0 £7,050 Full-time – years 1-3 * £9,250	No change
