

FACULTY OF HEALTH & WELLBEING

RESEARCH & ENTERPRISE NEWSLETTER

FOREWORD

Welcome to this Issue!

Our growing research community continues to be busy and, in this issue, there are news of our contributions in national and international conferences in various areas such as critical care, arts and health, assistive technologies in healthcare and mental health peer workers.

A number of developments in relation to our collaborative work with local NHS Trusts and mutual involvement in regional research activity are also reported. We are pleased to announce the launch of a new international project, EMPOWERCARE, and provide updates of our current projects.

I hope you enjoy reading this issue and we look forward to seeing at our forthcoming events and seminars.

Professor Eleni Hatzidimitriadou

Professor of Community Psychology and Public Mental Health
Head of Research and Enterprise

DATES FOR YOUR DIARIES

Friday 12th June
 2nd Annual 'Growing Research & Researchers' Student Conference

Monday 6th July
 Faculty Early Career Researcher (ECR) Festival

To attend, please email:
FHWB.RKEOfficer@canterbury.ac.uk

In the last few months we welcomed:

Joanna Apps
 MOTION
 Principal Research Fellow

Nikki Price
 MOTION
 Project Administrator

Dr Ray Smith
 CASCADE
 Research Fellow

Jes Phillips
 SDH
 Research Assistant

Julia Moore
 SDH
 Research Fellow

CONGRATULATIONS!

MOTION Project Administrator, **Nikki Price**, showcased four pieces of work to accompany her Master's thesis at the Daphne Oram building during August and September 2019.

Nikki's research focuses on the family, exploring, after the death of an adult family member, what photographs and objects are kept or discarded, and the memories they evoke.

The launch event on 26th September 2019 was a great opportunity to share stories using displayed photographs as a conversation starter, with many colleagues and the wider public in attendance.

British Association of Critical Care Nurses (BACCN) Conference

Ann Price, Senior Lecturer at the School of Nursing, Midwifery and Social Work, attended the BACCN conference on 16th-17th September 2019 in Edinburgh. She presented the local data around 'Engagement of Families in ICU from the nursing staff perspective' which is part of an international study across 10 countries.

Ann Price, Senior Lecturer

Ann has been working with the International Family Nursing Association (based in USA) as part of the intensive care cluster to gain insights into family engagement at time of critical illness.

The final stage of the analysis across the globe is in progress and findings will be published later in 2020.

8th European Conference on Mental Health Belfast, Northern Ireland, 2nd - 4th October 2019

In October 2019 **Victoria Stirrup**, Researcher and PhD candidate, School of Nursing, Midwifery and Social Work, presented at the 8th European Conference on Mental Health in Belfast, Northern Ireland.

The conference reception was opened at Belfast City Hall by Lived Experience Practitioners (LXPs) from Enik Recovery College, Utrecht, Netherlands.

Victoria presented one aspect of her PhD research on organisational support for mental health peer workers in an NHS Foundation Trust. This looked at the example of a co-produced project steering group and explored how this had been constructed as a relational space by participants in her research.

Victoria's attendance at the conference was supported by the Faculty's PhD Support Award.

*Victoria Stirrup (left)
Researcher and PhD candidate, School
of Nursing, Midwifery and Social Work*

WELCOME

Dr Jane Povey

Faculty Visiting Senior Research Fellow & EKHUFT Research Facilitator

Dr Jane Povey, EKHUFT Research Facilitator, has been appointed from 1st February 2020 for 3 years as a Visiting Senior Research Fellow in our Faculty. Jane's role was introduced by the Trust to ensure better and easier links with the local Universities, CCCU and University of Kent, in terms of developing collaborative research grants and outputs with clinical and non-clinical NHS colleagues.

Our Faculty and University will benefit from Dr Povey's input in forthcoming bidding activity for NIHR and other national/international bids that have as prerequisite strong relations between Universities, NHS trusts and other stakeholders. She will also be able to engage with relevant Faculty Research Hubs and units as well as other parts of the University.

JOINT WELLBEING SCHOLARSHIP DAY

On 6th February 2020, the Faculties of Education and Health & Wellbeing organised an inspiring day giving colleagues the opportunity to make new connections and enjoy shared speakers, group discussions, lightening talks and a poster competition.

- 2 Deans with 110 colleagues and students attended
- 2 keynotes both focusing on what is wellbeing from the different approaches of health and education.
- 15 posters entered for the Poster Prize award, which was donated by the Christ Church Sport Wellbeing Team.
- Contributors on the day also included :
 - ◇ **Tom Delahunt**, Senior Lecturer at the School of Nursing, Midwifery and Social Work, **Innovative Teacher of the Year award winner**, presenting his Creative therapeutics
 - ◇ Christ Church Sport and Wellbeing Team talking about their new More Move app and the Wellbeing Approach
 - ◇ the Research and Innovation Funding Unit talking about the 10 Steps for Bid Development

Debra Towse (Dean of Health and Wellbeing) with poster winners Dr Sue Soan, best poster, (left) and Erin McCloskey highly commended (right)

In the afternoon, sessions included 24 lightening talks, some of which were presented by FHWB colleagues:

<p>Education children and life limiting conditions</p> <p>Dr Sally Robinson and Dr Ian Durrant</p>	<p>Nursing students and the use of twitter as an educational activity</p> <p>Nicole South and Victoria Stirrup</p>	<p>The ADAPT Project: Assistive Technology (AT) Training for Healthcare Professionals</p> <p>Prof Eleni Hatzidimitriadou and Dr Maria Stein</p>	<p>Community festivals: health promoting assets and ways to wellbeing</p> <p>Tristi Brownett</p>
<p>Health and well-being of Nepalese population</p> <p>Dr Rajeeb Sah</p>	<p>Remember to Dance: Supporting quality of life through a community dance programme for people living with dementia.</p> <p>Dr Trish Vella-Burrows</p>	<p>Getting back to life after stroke: co-designing a peer-led coaching intervention to enable stroke survivors to rebuild a meaningful life after stroke.</p> <p>Prof Chris Burton</p>	<p>Postural care and training.</p> <p>Dr Eve Hutton and Dr Sue Soan</p>
<p>Improving wellbeing for people with dementia and their carers through arts engagement</p> <p>Dr Ann Skingley</p>	<p>Photo elicitation and story telling</p> <p>Dr Gemma Wells</p>	<p>Spiritual care and student nurses</p> <p>Ann Price</p>	<p>The Diabetes and wellbeing (DWELL) project</p> <p>Sharon Manship and Dr Rachael Morris</p>
	<p>Midwifery and drama students – development of professional scenarios</p> <p>Joan Lawrence</p>		

The Interdisciplinary Research Network (IRN) Hallow Research event

30th October 2019

The Interdisciplinary Research Network (IRN), a cross-faculty CCCU staff network for anyone interested in learning about, developing and gaining funding for interdisciplinary research (IDR), met for the second time at its Hallow Research event on 30th October 2019.

The Halloween themed Hallow Research event, included presentations showcasing a current IDR project at CCCU, Justice Dogs International (Katarina Mozova, Law, Criminal Justice and Policing), information on IDR friendly funding sources (**Joanna Apps**, MOTION Principal Research Fellow & Academic lead, Research Development) and project pitches from attendees looking for support for, and feedback on, their IDR project ideas.

If you would like to know more about the work of the IRN and future IRN events please contact: katja.hallenberg@canterbury.ac.uk

New Deputy Director of Research & Innovation at EKHUFT

Dr David Stephensen

Dr David Stephensen, Visiting Reader at the School of Allied and Public Health Professions CCCU, has been appointed as Deputy Director of Research at East Kent Hospitals University NHS Foundation Trust, leading the innovation elements of the Trust's R&I strategy.

David is a very experienced, senior physiotherapist based in the Haemophilia Centre at K&CH who has successfully combined clinical practice with an accomplished research career. A previous holder of NIHR fellowships we look forward to our continued collaboration with him and the Trust.

FORTHCOMING EVENT

Annual Growing Research & Researchers Student Conference 12th June 2020

The 2nd Annual Growing Research & Researchers Student Conference, an event jointly organised with Kent and Medway NHS and Social Care Partnership Trust (KMPT) will be held on Friday 12th June 2020 in Augustine House, Canterbury.

Keynote speakers include:

- * **Professor Laura Serrant OBE**
- * **Dr Peter Carter OBE**
- * **Assistant Professor John Gilmore**

CASCADE

Community Areas of Sustainable Care And Dementia Excellence in Europe

In early September, just ahead of the project's six monthly Steering Group Meeting, **Dr Ray Smith** joined the CASCADE evaluation team as a Research Fellow. Ray has extensive experience as a researcher, is well published, and has worked on projects around improving care for care home residents and volunteer peer support and befriending for carers of people living with dementia.

October 2019 was the month when the newly built CASCADE care facilities - Harmony House in Rochester and Harmonia Village in Dover - opened their doors. The CCCU team were invited to the launch of both units. You can check out the CCCU team's visits to the openings on our Twitter account. Media links explaining more about Harmony House and Harmonia Village can be found at: Harmony House - BBC Southeast video <https://vimeo.com/365529326>

The blog on local dementia care initiatives, that the CASCADE CCCU evaluation team wrote collectively with the Faculty Time for Dementia Lead, **Mary Kirk**, Senior Lecturer at the School of Nursing, Midwifery and Social Work, to coincide with the opening of Harmony House and Harmonia village, has attracted immense interest. At the time of writing the blog has received almost a thousand visitors. You can read the blog at <https://blogs.canterbury.ac.uk/expertcomment/putting-local-top-quality-dementia-care-on-the-map/>

In late November 2019, **Professor Kim Manley** delivered a CASCADE Person-centred Leadership in Dementia Care Module workshop in Antwerp. These sessions aim to train people to deliver the module themselves to others so they can cascade their learning forwards.

You can follow the CASCADE project on Twitter **@CCCUCASCADE**

For any queries regarding the project, please contact **CASCADE@canterbury.ac.uk**

Developing a research strategy for quality, safety and transformation

The aim of the project is to develop a joined-up approach across Kent and Medway to both raise the profile of, and give greater focus to, research in quality, safety and transformation.

It will enable nurses, midwives and allied health professionals to become both more visible and more active in research. In addition, the project will enable an integrated approach to quality, safety and transformation that mirrors the aspiration of the NHS Plan to provide integrated health and social care. It will help health care providers to be knowledge rich and evidence based in relation to these vital areas.

Staff from all backgrounds either passionate about, or with an interest in, quality, safety and transformation research are invited to participate in local workshops to co-construct the strategy and identify priorities across Kent and Medway to inform future direction and action.

Faculty colleagues and staff working together across CCCU and EKHUFT contributing to the Kent and Medway Strategy

Prof Kim Manley, with a number of Faculty colleagues, has been working with colleagues from the University of Kent to support the Kent Community Health Foundation Trust (KCHFT) with the development of Research Champions across a number of professions funded by Health Education England, Kent, Surrey and Sussex. Research champions are novice researchers who are supported through partial backfilling of their posts and formal academic input and mentorship together with internal mentorship support to take forward research ideas in relation to their own practice and service.

ADAPT

CCCU is leading the 'Training of Health Care Professionals in Assistive Technologies (AT)' element of the four year European funded [Interreg France (Channel Manche) England] ADAPT Project, which aims to empower disabled people through robotic technologies

Assistive Technology UK
Training

We launched the e-learning ADAPT AT Training Programme, with Unit 1 'Foundations of AT' to CCCU staff and students in summer 2019. The team has been busy developing content of the next Units which are more specialist, including Disability and AT, AT for Posture and Mobility, AT for Communication and Evidence-Based Practice for AT. New Units will be made available from March 2020.

Development of the 'Train the Trainer' Unit is also underway in collaboration with engineering partners who are developing the ADAPT technology - a wheelchair simulator incorporating virtual reality software. All Units are being evaluated at the end of the Unit and at 6-month follow up. So far, over 30 CCCU staff and students have undertaken Unit 1 and evaluation data is currently being collated and analysed. Following NHS HRA ethical approval, Unit 1 will be also made available to healthcare professionals in partner NHS Trusts in our region from February 2020.

You can follow the ADAPT Project on Twitter [@CCCUADAPT](https://twitter.com/CCCUADAPT)
For any queries regarding the project, please contact: adapt@canterbury.ac.uk

DWELL (Diabetes and WELLbeing)

DWELL is a European funded project (Interreg 2 Seas 2014-2020 Programme) which aims to empower patients with Type 2 diabetes in the UK, Belgium, France and the Netherlands to self-manage their condition and improve their wellbeing

Delivery of the DWELL 12-week self-management programme for people with type 2 diabetes is still underway at the 5 project sites in the UK, Belgium, France and the Netherlands. The CCCU DWELL team are collecting and analysing data related to patient outcomes process evaluation and cost-effectiveness analysis on an ongoing basis. In October 2019, our team visited the DWELL Belgium site in Ghent to review how their DWELL programme is delivered there and collect data from the project partner.

Prof Eleni Hatzidimitriadou with Julie Webster, Medway Community Healthcare, and DWELL Patient Ambassadors at the Diabetes Professional Care Conference, London

Interim results of the evaluation study were presented for the first time by Prof Eleni Hatzidimitriadou at the Diabetes Professional Care Conference at Olympia, London, 29-30 October 2019. A summary of these results was also presented to healthcare professionals at the regional Diabetes Update Event (hosted by Sano-fi) at the Ashford International Hotel, 2 October 2019.

A cross-border DWELL Patient Ambassador meeting, roundtable stakeholder event and project Steering Group Meeting took place in Douai, France on 20-21 November 2019 and was attended by representatives of all partner organisations and external stakeholders. The DWELL project has been granted a 3-month extension, which will allow the continuation of the intervention and its evaluation until July 2020 and it is anticipated that the final project report will be ready by end of October 2020.

You can follow the DWELL Project on Twitter [@CCCU_DWELL](https://twitter.com/CCCU_DWELL)
For any queries regarding the project, please contact dwell@canterbury.ac.uk

EMPOWERCARE

EMPOWERing individuals & communities to manage their own CARE is a European funded project (Interreg 2 Seas) in France, Belgium, Netherlands and the UK

Initiation meeting with EMPOWERCARE Project Partners at the Cathedral Lodge

In January 2020 **Prof Eleni Hatzidimitriadou** with **Dr Toni Wright** and **Anne Stone** attended the EMPOWERCARE initiation project meeting at the Cathedral Lodge, Canterbury.

Representatives from all 13 project partners attended the 2-day meeting and discussed all aspects of the project, including planned work for all work packages in the next 6 months, project management and communications arrangements, and planned site visits in the project countries. The CCCU team had its first project meeting in early February 2020 and agreed their work plan and next steps for the team.

You can follow the EMPOWERCARE Project on Twitter [@CCCUEMPOWERCARE](https://twitter.com/CCCUEMPOWERCARE)

For any queries regarding the project, please contact EMPOWERCARE@canterbury.ac.uk

MOTION (Mechanised Orthosis for Children with Neurological Disorders)

MOTION is a European funded project (Interreg 2 Seas) to advance the development, validation and adoption of bionic rehabilitation technology for children with neurological disorders to improve their quality of life

In October 2019, **Prof Eleni Hatzidimitriadou**, with **Joanna Apps**, MOTION Research Fellow and **Dr Mathew Brown**, Senior Lecturer in Sports Biomechanics, met with other project partners in Geel, Belgium. The visit, part of a steering group meeting for project partners in France, Belgium, UK and the Netherlands, provided an opportunity for the research teams to see exoskeletons and other assistive technology in use with adults and children in clinical and specialist children and young people's therapeutic settings and discuss delivery and design issues for the next stage of the work.

The CCCU team is currently conducting an early stage part of the project in relation to development of training of healthcare professionals and parents of children with Cerebral Palsy in the use of robotic assistive technologies in aid of rehabilitation practices with this group of children. In this early part of the project, CCCU and partners in other countries will conduct an online survey with professionals and telephone interviews with parents to explore their views and experiences with robotic assistive technologies for children with CP.

A report of findings will be available later in 2020.

MOTION partners in Geel, Belgium

You can follow the MOTION Project on Twitter [@CCCUMOTION](https://twitter.com/CCCUMOTION)

For any queries regarding the project, please contact motion@canterbury.ac.uk

AAATE Conference, Bologna, Italy - 27-30 August 2019

The CCCU team with other ADAPT partners

In August 2019, three members of the CCCU ADAPT team **Prof Eleni Hatzidimitriadou**, **Dr Maria Stein** and **Dr Claire Parkin** travelled to Bologna, Italy, to present alongside project partners as part of a Special Thematic Session at the 15th Association for the Advancement of Assistive Technology in Europe (AAATE) Conference titled 'Global Challenges in Assistive Technology'.

The STS comprised 8 papers linked to the project, 3 of which were presented by the CCCU team. In particular, they focus on: findings of a literature review of the challenges encountered in the adoption of Assistive Technology (AT) and training of healthcare professionals; the results of a survey of AT knowledge and experiences of healthcare professionals in the UK and France; and the training needs and development of online AT training for healthcare professionals.

The AAATE Conference was an important opportunity to raise the profile and work of the ADAPT Project amongst stakeholders in Europe and further afield. During the conference, the organisers invited the delegates to endorse the Bologna Declaration 'Unlocking Human Potential: A Call for Action to Improve Access to Quality Assistive Technology for Realising Fundamental Human Rights and Achieving the Sustainable Development Goals in a Full Inclusive Manner'.

For more information, please visit: <https://aaate.net/the-bologna-declaration/>

Celebration of Sidney De Haan Centre's 11-Year Singing Legacy

Dr Trish Vella-Burrows, Nicola Wydenbach and trainees at Trinity Laban Conservatoire

On 10th November 2019, **Dr Trish Vella-Burrows**, SDH Principal Research Fellow, led a celebratory singing session at Age UK, Canterbury. Members of Age UK Canterbury continue to enjoy regular singing and music sessions eleven years on from the first cohort of CCCU students who engaged in a placement scheme as part of the Music, Arts & Health module in 2008.

Launched by former Co-Director of the SDH Centre, Prof Grenville Hancox, the activities are now run by community partners of the Centre, Music4Wellbeing - of which Trish is a Director - which designs activities based on the Centre's research outputs.

The long-term initiative is testament to the positive impact of the University's engagement with the community.

REF 2021 UPDATE

The REF (Research Excellence Framework) is the system for assessing research in UK Higher Education Institutions with a primary purpose to produce assessment outcomes for each submission made by institutions. The principles of equality, equity and transparency govern the conduct of the REF and each submission is assessed by expert panels.

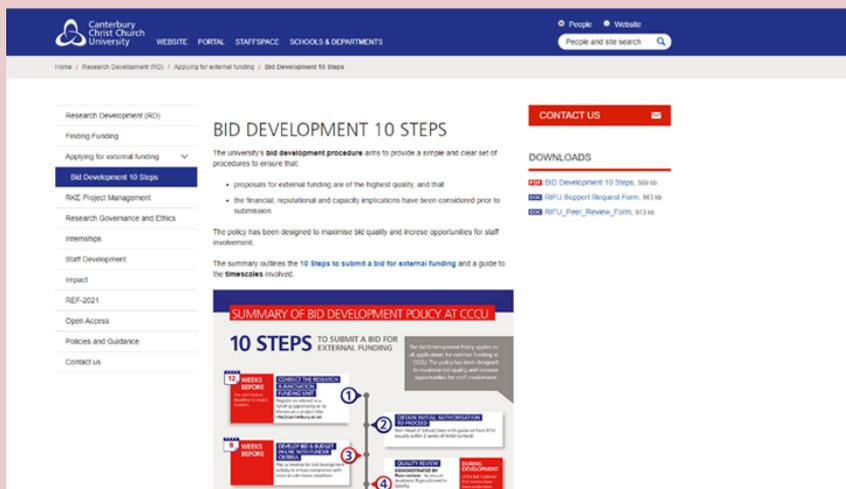

Our Faculty is submitting outputs and impact evidence under **Unit of Assessment 3 (Allied Health Professions, Dentistry, Nursing and Pharmacy)**. We are planning to submit two Impact Case Studies in the areas of singing and creative arts for health and wellbeing, and in enhancing the care and role of service users and carers in mental health settings. These ICSs build on our past research, include new developments, and firmly include collaborations with NHS Trusts, Charities, Local Authorities and other organisations. As always we value this collaboration immensely and would like to take this opportunity of thanking those involved.

November and December 2020 will see the culmination of extensive work which includes internal assessment of research outputs, gathering of evidence of impact, reach, significance of our research and developing a narrative of our research environment. The REF submissions are due in December 2021 and outcomes of this exercise for all Universities will be made public in January 2022.

PEER REVIEW

RIFU have recently made some updates to our peer review guidance and form that can be used by colleagues who are bidding and by those that have been asked to review applications. To view and download this form please visit the RD webpages: <https://cccu.canterbury.ac.uk/research-development/applying-for-external-funding/bid-development-procedure.aspx>

Peer review is intended to identify areas of improvement to the quality of a research grant proposal. The purpose of peer review is to provide **formative feedback** to help the Principal Investigator develop the proposal and to demonstrate to institutional approvers that a process of feedback has taken place.

FUNDING WORKSHOP

On 25th September 2019, the CCCU Research and Innovation Funding Unit (RIFU) hosted a workshop for researchers in the Faculty interested in bidding for external funding.

The workshop was attended by academics from across Faculty and it was facilitated by **Dr Harriett Kersey**, Research and Innovation Manager. Areas of discussion included: how to get started with searching for appropriate funding schemes, top tips for bidding, and the CCCU Bid Development Policy.

The University's new research repository, **Research Space**, is now live! It contains full-text outputs of all publications our academics are producing and it can be accessed:

internally via StaffNet (under Academic on the left hand side)

or externally at: <https://repository.canterbury.ac.uk/>

GRANT WRITING WORKSHOPS

The **Graduate College** and **Researcher Development unit** are running two grant writing workshops in March 2020.

WORKSHOP 1 - Overview and preparation for grant writing - 3rd March, 11-3pm, Ns09 (11-1) and Nt01 (1-3)

This session will provide an overview of the funding landscape in the UK and consider experience at CCCU in successful (and unsuccessful) application; CCCU processes and procedures; finding ideas; finding funding and identifying resources.

WORKSHOP 2 - Writing a grant application - 5th March, 1-6pm, OS1.14

This session will include some structured writing exercises and 'shut up and write' sessions to get you started. We will also consider some practical issues around costing your project.

Faculty Writing Retreat

In February 2020, **Sharon Manship**, Research Fellow, Faculty of Health and Wellbeing, organised a successful Writing Retreat. The idea was to bring together Researchers to aid focus and productivity.

It is hoped that further sessions will run throughout the year.

LUNCHTIME RESEARCH SEMINAR SERIES

26th February 2020: “Suicide on the Railways: Multi-Disciplinary and Lived Experience Approaches to Prevention” presented by *Dr Ian Marsh*

18th March 2020: “Sexual abuse of vulnerable women in mental health services – tracing the history of approaches to consent in UK mental health law and professional regulation” presented by *Dr Janet Melville-Wiseman*

22nd Apr 2020 will be presented by *Dr Bob Cecil*

20th May 2020 will be presented by *Dr Pat Chung*

17th Jun 2020 will be presented by *Athene Lane-Martin*

15th Jul 2020 will be presented by *CASCADE project team*

The seminars will run from 12:30—13:30 with a light lunch offered at 12:00 and the opportunity to remain for networking until 14:00. To reserve a place please email FHWBRKE.Officer@canterbury.ac.uk

Please keep an eye on the RKE noticeboard (Newton first floor corridor) for an updated list and details of rooms which will be added when bookings are confirmed.

Anyone interested in presenting their research, please do get in touch by email FHWB.RKEOfficer@canterbury.ac.uk

FACULTY RESEARCH HUBS

Faculty Research Hubs continue to meet and welcome new members at any stage of their research career

Hubs meet regularly and have a dedicated Blackboard area for members to share research profiles, meeting notes and any other resources that may be of interest to colleagues with similar research interests.

If you wish to join any of the hubs, please contact FHWB.RKEOfficer@canterbury.ac.uk
