## 1 Scope of the General Regulations for the Conferment of Awards

- 1.1 This document, together with the *Regulations for Taught Awards*, and the *Regulations for Research Awards*, supersedes the *Regulation and Credit Framework for the Conferment of Awards*, except where a student is registered under the *University's Outgoing Regulations*, the *Research Degrees Academic Framework*, or the *Postgraduate Initial Teacher Education Framework*, in which case they will be subject to those regulations.
- 1.2 Unless clearly indicated otherwise, the Regulations apply to all programmes of study which lead to an Award, or to the award of credit, by Canterbury Christ Church University [the University], wherever they are delivered.
- 1.3 Unless clearly indicated otherwise, these Regulations apply to all students registered at the University, irrespective of the date of registration. Where there is a previously-approved Regulation or Special Regulation that confers any additional rights on a student due to the date of the student's initial registration, and continuing registration, on a programme, the student may rely upon the previously-approved Regulation or Special Regulation.
- 1.4 Where specific regulations are approved to apply to particular groups of students before or after a certain date, this is clearly indicated.
- 1.5 The University may publish operational procedural documents supporting the implementation of these Regulations. These operational procedural documents provide detailed information for staff on applying the Regulations. If there is any conflict of interpretation between these Regulations and the procedural documents, these Regulations have precedence subject to any interpretation being in favour of the student.
- 1.6 A student has the right to make an academic appeal by requesting a review of the decision-making of an academic or professional body, charged with making academic decisions on progression, conduct of assessment, and the academic conduct of awards.

Students registered on the University's Outgoing Regulations should be referred to the [Outgoing Regulations](#).
